

Dragonfly Energy Showcases Technical Leadership at The Battery Show North America 2025

September 29, 2025

Company leaders to deliver sessions on U.S. lithium battery manufacturing and hybrid electrification

RENO, Nev., Sept. 29, 2025 (GLOBE NEWSWIRE) – [Dragonfly Energy Holdings Corp.](#) (Nasdaq: DFLI) (“Dragonfly Energy” or the “Company”), an industry leader in energy storage and maker of Battle Born Batteries®, will maintain a strong presence in the technical program at The Battery Show North America 2025, taking place Oct. 6 to 9, 2025, in Detroit. Through sessions on domestic lithium battery manufacturing, hybrid electrification and battery fundamentals, the Company will highlight its technical leadership and contributions to advancing the industry dialogue.

Recognized as the largest advanced battery and electric vehicle technologies event in North America, The Battery Show brings together thousands of engineers, decision-makers, and innovators from across the global energy storage supply chain. The conference program serves as a premier forum for sharing technical knowledge, policy perspectives, and practical applications that are shaping the future of electrification.

Through a series of workshops, panel discussions, and case study presentations, Dragonfly Energy’s leadership will provide insights and expertise on the evolving landscape of energy storage, U.S. manufacturing, and electrification.

The company’s participation includes:

- **[US Battery Manufacturing - Short Term Challenges for Long Term Success \(Panel\)](#)**: Chief Operating Officer Dr. Vick Singh joins industry leaders to discuss scaling domestic production and advancing innovative processes.
- **[Hybrid Electrification in Trucking: A Lithium Solution to Idling](#)**: Chief Commercial Officer Wade Seaburg presents real-world trucking applications that demonstrate the operational impact of lithium-powered systems.
- **[Battery 101: The Fundamentals of How a Lithium-Ion Battery Works](#)**: A three-hour hands-on program led by Dragonfly Energy is designed to equip professionals with technical knowledge on chemistries, performance, and integration considerations.

“Our focus has always been on advancing the dialogue around energy storage and manufacturing innovation,” said Dr. Denis Phares, chief executive officer of Dragonfly Energy. “The Battery Show offers an important forum to exchange ideas, highlight technical progress, and collaborate on the solutions needed to strengthen the industry as a whole.”

Dragonfly Energy’s thought leadership at this year’s conference underscores its commitment to both technical rigor and cross-industry collaboration, reinforcing the company’s role in shaping the future of clean energy and advanced battery manufacturing.

About Dragonfly Energy

Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) is a comprehensive lithium battery technology company, specializing in cell manufacturing, battery pack assembly, and full system integration. Through its renowned Battle Born Batteries® brand, Dragonfly Energy has established itself as a frontrunner in the lithium battery industry, with hundreds of thousands of reliable battery packs deployed in the field through top-tier OEMs and a diverse retail customer base. At the forefront of domestic lithium battery cell production, Dragonfly Energy’s patented dry electrode manufacturing process can deliver chemistry-agnostic power solutions for a broad spectrum of applications, including energy storage systems, electric vehicles, and consumer electronics. The Company’s overarching mission is the future deployment of its proprietary, nonflammable, all-solid-state battery cells.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that are not historical statements of fact and statements regarding the Company's intent, belief, or expectations, including, but not limited to, statements regarding Battle Born Batteries with Dragonfly Intelligence, the Company's future results of operations and financial position, planned products and services, business strategy and plans, market size and growth opportunities, competitive position and technological and market trends. Some of these forward-looking statements can be identified by the use of forward-looking words, including "may," "should," "expect," "intend," "will," "estimate," "anticipate," "believe," "predict," "plan," "targets," "projects," "could," "would," "continue," "forecast" or the negatives of these terms or variations of them or similar expressions.

These forward-looking statements are subject to risks, uncertainties, and other factors (some of which are beyond the Company's control) which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. Such factors include those set forth in the sections entitled "Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements" in the Company's Annual Report on Form 10-K for the year ended December 31, 2024, and in the Company's subsequent filings with the SEC available at www.sec.gov. If any of these risks materialize or any of the Company's assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that the Company presently does not know or that it currently believes are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. All forward-looking statements contained in this press release speak only as of the date they were made. Except to the extent required by law, the Company undertakes no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they were made.
