

Dragonfly Energy and Airstream® Announce Expanded Partnership

August 19, 2025

Battle Born LiFePO₄ Batteries Now Standard in Airstream's new Advanced Power Packages

- Dragonfly Energy's Battle Born Batteries® are now the lithium battery option for all Airstream products
- Battle Born LiFePO₄ technology is standard on Airstream touring coaches and standard or optional on all towable products
- Airstream's Advanced Power System and Advanced Power Plus Packages launched in July at Airstream's International Dealer Meeting in Lexington, KY, featuring integrated Battle Born battery systems

RENO, Nev., Aug. 19, 2025 (GLOBE NEWSWIRE) -- [Dragonfly Energy Holdings Corp.](#) (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in energy storage and battery technology and maker of Battle Born Batteries®, today announced an expanded partnership with Airstream, Inc®. With Battle Born Batteries now standard in Airstream's Model Year 2026 Interstate and Atlas motorized lines, Battle Born Batteries are now used across Airstream's entire product lineup both as standard features as well as optional upgrades. This expansion builds on a long-standing collaboration between two American brands committed to innovation, reliability, and enabling off-grid freedom.

"Our work with Dragonfly Energy has evolved into a strong and productive partnership over the years," said Chris Rahrig, Vice President of Supply Chain at Airstream. "As we expand our capabilities in off-grid travel, it's essential to align with partners who prioritize power independence, quality, and user experience."

The expanded collaboration now includes seamless integration of Battle Born lithium iron phosphate battery systems into the standard Advanced Power System and optional Advanced Power Plus Packages in Airstream's Mercedes-Benz® lineup of motorized products, officially unveiled at the Airstream International Dealer Meeting in July. Designed to meet rising demand for high-capacity energy solutions, these factory-installed systems are optimized for longevity and robust off-grid capability.

At the heart of these packages is the High-Capacity System featuring three of the Company's patented BBGC3 LiFePO₄ batteries, delivering 10.3 kWh of usable energy at 100% depth of discharge. Combined with integrated heating technology for cold-weather, seamless alternator charging and compatibility with solar, the system supports extended off-grid use and high-demand power needs.

Airstream Interstate and Atlas 2026 models equipped with the Advanced Power System can be upgraded to the optional Advanced Power Plus system. This upgrade-ready system allows customers to add up to two additional BBGC3 batteries (an extra 6.9 kWh) either at the factory or through an authorized Airstream dealer. This flexibility empowers owners to expand their energy system over time to match evolving power needs.

"We're proud to be Airstream's trusted lithium battery provider and to power the next generation of off-grid-capable RVs," said Dr. Denis Phares, CEO of Dragonfly Energy. "Our LiFePO₄ systems deliver the reliability and performance Airstream owners need to travel further and stay off-grid longer, whether it's a weekend trip or full-time adventure."

This announcement marks the next chapter in a long-standing partnership between two iconic American brands, united by their shared passion for innovation, reliability, and enabling off-grid freedom.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that are not historical statements of fact and statements regarding the Company's intent, belief, or expectations, including, but not limited to, statements regarding Battle Born Batteries with Dragonfly IntelliGence, the Company's future results of operations and financial position, planned products and services, business strategy and plans, market size and growth opportunities, competitive position and technological and market trends. Some of these forward-looking statements can be identified by the use of forward-looking words, including "may," "should," "expect," "intend," "will," "estimate," "anticipate," "believe," "predict," "plan," "targets," "projects," "could," "would," "continue," "forecast" or the negatives of these terms or variations of them or similar expressions.

These forward-looking statements are subject to risks, uncertainties, and other factors (some of which are beyond the Company's control) which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. Such factors include those set forth in the sections entitled "Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements" in the Company's Annual Report on Form 10-K for the year ended December 31, 2024, and in the Company's subsequent filings with the SEC available at www.sec.gov. If any of these risks materialize or any of the Company's assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that the Company presently does not know or that it currently believes are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. All forward-looking statements contained in this press release speak only as of the date they were made. Except to the extent required by law, the Company undertakes no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they were made.

ABOUT AIRSTREAM

Airstream, manufacturer of the iconic riveted aluminum Airstream® travel trailer, is one of the longest-tenured recreational vehicle manufacturers in the world. The company's mission, as set forth by founder Wally Byam, is to create well-designed, high-quality products that allow people to follow their dreams and explore the world in home-like comfort. A steadfast commitment to Byam's creed, "Let's not make changes, let's only make improvements," has made the aluminum Airstream travel trailer a timeless classic. An unwavering focus on innovation keeps the company at the forefront of technology and customer experience in both the towable and motorized sectors. Airstream is based in Jackson Center, Ohio, where a team of skilled craftspeople hand builds each travel trailer and upfits every Mercedes-Benz® and RAM® touring coach, adding daily to the brand's reputation for quality and innovation. Learn more about Airstream, our dealers, and current travel trailer and touring coach models at airstream.com. For the latest news on Airstream, like us on Facebook and follow us on Twitter and Instagram. Airstream, Inc. is an operating company of Elkhart, IN-based THOR Industries, Inc. (NYSE: THO). THOR is the sole owner of operating companies which, combined, represent the world's largest manufacturer of recreational vehicles.
