

Dragonfly Energy Set to Join Russell 3000® Index

June 12, 2023

RENO, Nev., June 12, 2023 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. ("Dragonfly Energy" or the "Company") (Nasdaq: DFLI), an industry leader in energy storage and producer of deep cycle lithium-ion storage batteries, today announced it is set to join the broad-market Russell 3000® Index at the conclusion of the 2023 Russell indexes annual reconstitution, effective after the US market opens on June 26, 2023, according to a preliminary list of additions posted by FTSE Russell.

Annual Russell indexes reconstitution captures the 4,000 largest US stocks as of April 28, 2023 ranking them by total market capitalization. Membership in the US all-cap Russell 3000® Index, which remains in place for one year, means automatic inclusion in the large-cap Russell 1000® Index or small-cap Russell 2000® Index as well as the appropriate growth and value style indexes. FTSE Russell determines membership for its Russell indexes primarily by objective, market-capitalization rankings and style attributes.

"Our inclusion in the Russell 3000® marks another important milestone for Dragonfly Energy during our first year as a public company," said Dr Denis Phares, CEO of Dragonfly Energy. "We believe inclusion in the index will provide us with more exposure to the broader investment community, and the opportunity to expand awareness of our unique position within the evolving energy storage market, as we look to deliver long-term value creation for our shareholders."

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies. Approximately \$12.1 trillion in assets are benchmarked against Russell's US indexes. Russell indexes are part of FTSE Russell, a leading global index provider.
